President's Message

A warm, personal statement from Dr. Ravi Kant Mishra establishing credibility, emotional connection, and a clear call-to-action for donors and volunteers. Use this on the website's "About" or "Our Story" page.

Dr. Ravi Kant Mishra

President, PGSM Welfare Society
Physician & Social Leader · Nowgong, Chhatarpur, MP

“ A Village Healed is a Nation Strengthened

As a doctor in Nowgong, I saw the same illness twice — once in the body, once in opportunity. Children missing school for preventable fevers. Women with extraordinary talent and no platform. Young people full of purpose and nowhere to channel it.

That gap refused to let me sleep. So in 2016, we built PGSM Welfare — not as charity, but as a covenant with our own community.

Today, our free health camps reach families who have never seen a specialist. Our classrooms and skill centres are rewriting what rural women and children believe is possible for them.

But this work is larger than any one person or team. **If you carry even a small flame of social purpose — your time, your expertise, your donation — bring it here.** Together, we will light up every corner of Chhatarpur.

Placement Tip: Display this message alongside a professional photo of Dr. Mishra in the field — at a health camp or classroom — never behind a desk. Authenticity in imagery doubles trust signals for first-time donors and

grant reviewers.
